Workshop “Renewable resources, Sustainability, and Search”

Heidelberg 12.-14.12.2013

Professor Thorsten Upmann and Dr. Stefan Behringer are organizing a workshop on the mathematical modelling of sustainable use and search for renewable resources at the Internationales Wissenschaftsforum in Heidelberg.

The keynote will be provided by Professor Alexey A. Davydov, Department of Functional Analysis and its Applications, Vladimir State University, Russian Federation.

Professor Francis Bloch, Ecole Polytechnique, Professor Fausto Gozzi, LUISS, Professor Peter Kort, Tilburg University, Professor Ngo Van Long, McGill University Montreal, Professor Vladimir Veliov, ORCOS, TU Vienna, and Professor Franz Wirl, University of Vienna have also agreed to participate.

The workshop is funded by an international cooperation grant with the Russian Federation of Deutsche Forschungsgesellschaft (DFG).

The workshop is by invitation only and space is very limited. If you are interested to attend please send an email by the 7.12. to Stefan.Behringer@uni-due.de

Location of the workshop:

Internationales Wissenschaftsforum Heidelberg

Hauptstrasse 242

69117 Heidelberg

Tel. +49 (0)6221 543690

Questions about the workshop can be addressed to either Stefan.Behringer@uni-due.de or Thorsten.Upmann@uni-due.de
